Darnell Hughes

Maintenance Mechanic

Maintenance mechanic with 6 years of troubleshooting and repair in glass and plastics plants. Rebuilds gearboxes and pumps, works on hydraulics and pneumatics, and fabricates parts with MIG and stick welding. Works independently on nights and weekends and keeps preventative maintenance records current in the CMMS.

Experience

Maintenance Mechanic

Maumee Glass Works • Toledo, OH • 01/2023 - Present

Mechanic in a 24/7 container glass plant with 4 forming lines.

- Rebuild gearboxes, pumps and conveyors on the forming and packing lines, about **15** rebuilds a quarter.
- Diagnose hydraulics and pneumatics on forming machines, restarting most stopped lines within an hour.
- Fabricate brackets, guards and chutes by welding in-house, replacing parts that had a 3-week lead time.
- Perform preventative maintenance on 70 assets, logging readings and parts used for each job.

Maintenance Technician

Lake Erie Plastics • Perrysburg, OH • 07/2020 - 12/2022

Second-shift technician in a 120,000 sq ft extrusion plant.

- Replaced motors, bearings and belts with hand tools and power tools on 25 extrusion lines.
- Wired motor starters and electrical controls under the plant electrician, passing every inspection.
- Cut scrap from a leaking hydraulic press **30%** by replacing cylinder seals and hoses.
- Repaired plumbing and compressed air lines, ending 9 recurring leaks across the plant.
