Summary

Maintenance planner with 6 years in chemical plant maintenance, the last 3 as a planner building job packages, parts kits and weekly schedules in SAP PM. A former millwright who reads equipment manuals and drawings, uses CMMS data to cut backlog, and brings attention to detail to every job plan.

Experience

08/2023 - Present
Baton Rouge, LA

Maintenance Planner

Delta Bayou Chemical

Planner for the rotating equipment crew at a 450-employee specialty chemical plant.

- Plan **120** corrective and preventive maintenance work orders a week in SAP PM for a 22-person crew.
- Write job plans with steps, parts, permits and labor hours, raising schedule compliance from 68% to 88%.
- Coordinate parts kits with the storeroom 48 hours before each job so crews no longer wait on missing parts.
- Cut the maintenance planning backlog from 9 weeks to 4 by purging duplicates and rebuilding the queue in Microsoft Excel.

06/2020 - 07/2023
Plaquemine, LA

Maintenance Mechanic

Gulf Coast Polymers

Day-shift millwright at a polyethylene plant.

- Repaired pumps, compressors and gearboxes, using mechanical troubleshooting to end repeat failures on 15 critical pumps.
- Completed 25 preventive maintenance tasks a week and recorded findings and parts used in Maximo.
- Rebuilt about 40 mechanical seals a year to vendor tolerances using equipment manuals and drawings.
- Trained 2 apprentices on shaft alignment, lockout/tagout and CMMS work order closeout.
