Summary

Manufacturing Associate with 1 year in a cGMP biologics plant, trained through the BioWork Process Technician program. Weighs and dispenses raw materials, completes batch records with zero errors, and handles material handling, cleanroom gowning and equipment cleaning with strong attention to detail.

Skills

- cGMP • Batch Records • SOPs • Material Handling • Cleanroom Gowning • Basic Math • Excel • Hand Tools
- Attention to Detail • Willingness to Learn

Experience

Manufacturing Associate

10/2025 - Present

Triangle BioProcess Services

Morrisville, NC

Support cell culture and buffer prep in a cGMP contract biologics manufacturing site.

- Prepared **60+** buffer and media batches up to 500 L, following SOPs and cGMP rules for every weigh and transfer.
- Completed batch records and logbooks in real time, finishing 11 months with zero documentation deviations.
- Cleaned and sanitized tanks, mixers and suites to schedule, supporting 4 straight environmental monitoring passes.
- Staged raw materials through material handling and the inventory system, cutting batch start delays by 30%.

Lab Stock Assistant

08/2024 - 09/2025

Wake Technical Community College

Raleigh, NC

Part-time student job stocking and preparing teaching labs for the biotechnology program.

- Prepared reagents and media for 6 lab sections a week, using basic math to scale recipes for each class size.
- Tracked chemical inventory in Excel and placed monthly reorders, keeping 150+ items in stock through the school year.
- Calibrated balances and pH meters weekly and logged results in the binder for the lab coordinator's annual audit.
- Organized glassware and hand tools in 2 prep rooms, cutting setup time for each class by 10 minutes.
