EXPERIENCE

Manufacturing Operator

04/2025 - Present

Sonoran Circuit Assemblies

Chandler, AZ

Run an SMT line building control boards for HVAC and industrial equipment customers.

- Operated a pick-and-place machine and reflow oven, building **1,100** circuit boards per shift at 99.2% first-pass yield.
- Loaded and verified 80+ component reels per changeover under ESD safety rules, with zero wrong-part builds in 2026.
- Cleared nozzle and feeder faults through basic troubleshooting, restoring the line within 10 minutes in most cases.
- Reported yield and downtime in Excel and Outlook each shift, flagging 3 recurring defects for process engineers.

Electronics Retail Associate

02/2023 - 03/2025

Desert Tech Repair

Mesa, AZ

Part-time sales and repair intake at a phone and computer repair shop.

- Diagnosed 25+ phones and laptops a week at intake, writing clear repair tickets for 2 technicians.
- Replaced screens and batteries under supervision, finishing about 40 repairs a month with few returns.
- Managed parts inventory in Microsoft Office and reordered stock, keeping top parts available 95% of the time.
- Processed payments and customer calls at the front counter, using basic math to quote parts and labor on every ticket.
