Summary

Medical Equipment Technician with 3 years in home medical equipment and supply work and a certificate in electronics technology. Handles preventive maintenance, equipment disinfection and safety checks on oxygen concentrators, hospital beds and power wheelchairs, and keeps service records and equipment inventory accurate. Holds a valid Texas driver's license with a clean record.

Experience

Medical Equipment Technician 02/2025 - Present

Alamo Home Medical Supply San Antonio, TX

Home medical equipment provider serving about 2,400 patients across Bexar County.

- Perform preventive maintenance on **90** oxygen concentrators a month, logging flow and purity readings for each unit.
- Process returned hospital beds, wheelchairs and CPAP units through inspection and disinfection, returning 35 a week to stock.
- Deliver and set up equipment in 8 to 10 homes a day, pairing patient education with friendly customer service.
- Verify equipment inventory and service records each quarter, cutting missing-asset counts from 22 to 4.

Warehouse and Delivery Associate 06/2023 - 01/2025

Mission Medical Distributors San Antonio, TX

Full-time role held while completing an electronics certificate at night.

- Delivered 25 medical supply orders a day to clinics and nursing homes with no vehicle incidents.
- Achieved 99% accuracy across 1,200 SKUs in monthly cycle counts through close attention to detail.
- Replaced brakes, casters and footrests on 15 rental wheelchairs a month for the service team.

Education
