SUMMARY

Medical lead and board-certified rheumatologist with 9 years in medical affairs and clinical practice, now owning the US medical plan for an immunology biologic. Leads evidence generation, advisory boards and medical training, and partners with clinical development and commercial teams under medical independence rules. Experienced in FDA and OIG guidance, publications and congress strategy.

EXPERIENCE

Medical Lead

05/2023 - Present

Raritan Immunology — Bridgewater, NJ

Biopharmaceutical company with 3 marketed immunology products and a lupus pipeline.

- Own the US medical plan for a **$900M** biologic, setting priorities for 22 MSLs and medical information.
- Launch 3 real-world evidence studies and 2 registry analyses to answer payer and guideline questions.
- Chair 6 national advisory boards a year, turning rheumatologist feedback into 12 plan changes.
- Review promotional and medical materials as the medical reviewer, clearing 200+ pieces a year.

Associate Medical Director

03/2020 - 04/2023

Garden State Biopharma — Princeton, NJ

Specialty pharma company focused on autoimmune disease.

- Wrote the medical sections of 4 congress strategies and 10 publication plans.
- Trained 30 MSLs on rheumatoid arthritis data and treatment guidelines.
- Partnered with clinical development on a phase 3 protocol, shaping 2 secondary endpoints.
- Answered 50+ complex medical escalations from HCPs with approved scientific content.

Rheumatologist

07/2017 - 02/2020

Morris County Rheumatology Associates — Morristown, NJ

Private rheumatology practice.

- Treated 25 patients a day with RA, lupus and psoriatic arthritis, and enrolled 40 in clinical trials.
- Served as sub-investigator on 6 industry-sponsored trials in rheumatoid arthritis and lupus.
- Taught 10 internal medicine residents a year in the rheumatology clinic.
