SUMMARY

First-year medical student with over 2 years as a clinical research assistant on Phase II and III trials and a certified phlebotomy technician. Brings working medical terminology, attention to detail in source documents and steady customer service with study participants.

EXPERIENCE

Clinical Research Assistant 06/2024 - Present

Peachtree Clinical Trials Center Atlanta, GA

Full-time before medical school, now per diem on cardiometabolic and vaccine trials.

- Perform phlebotomy and 12-lead EKG tracings at study visits for 3 Phase II and III trials.
- Coordinate about 40 participant visits a month through Microsoft Outlook, holding the no-show rate under **8%**.
- Record source data in the sponsor EDC within 48 hours and keep a Microsoft Excel tracker for data management on 210 participants.
- Process, centrifuge and ship lab kits under IATA rules, with no sample rejections in the past 12 months.

Phlebotomist 07/2022 - 05/2024

Southeast Diagnostic Labs Atlanta, GA

Outpatient draw station serving adult and pediatric patients.

- Performed 35-45 venipunctures and capillary draws per shift for adult and pediatric patients.
- Verified orders and labeled specimens with a mislabel rate below **0.1%** over 2 years.
- Calmed anxious and needle-averse patients, earning a 4.9 out of 5 patient survey average.
