Summary

Millwright foreman with 10 years in the trade and 3 years running crews of up to 14 on equipment installs and plant outages. Plans rigging and lifts, assigns work from setting plans, and keeps crews safe on forklifts, cranes and aerial lifts. Known for clear communication skills with superintendents, engineers and owner reps.

Experience

Millwright Foreman

Three Rivers Industrial Contractors — Pittsburgh, PA — 05/2023 - Present

Millwright and rigging contractor for steel, glass and power plants in western Pennsylvania.

- Lead crews of up to **14** millwrights on installs and outages worth \$1M to \$6M each.
- Plan rigging and critical lifts up to 60 tons, with zero dropped loads across 22 projects.
- Assign daily tasks from setting plans and track manhours, finishing 9 of 10 jobs under budget.
- Run morning safety briefings and forklift and crane checks, keeping crew TRIR at 0.0 for 2 years.

Journeyman Millwright

Monongahela Mechanical — McKeesport, PA — 05/2020 - 04/2023

Union mechanical contractor for steel mills and power stations.

- Set and aligned turbines, fans and pumps during 8 power station outages.
- Installed a 400-foot coil conveyor line at a steel mill, leading a 4-person team.
- Trained 6 apprentices on precision leveling, laser alignment and rigging practices.
- Rebuilt gearboxes and mill stand components, meeting OEM tolerances on every final check.

Millwright Apprentice

Monongahela Mechanical — McKeesport, PA — 05/2016 - 04/2020

Same contractor, 4-year registered apprenticeship.

- Rigged and set fans, pumps and conveyor sections on 20+ steel mill and power jobs.
 - Completed 8,000 on-the-job hours plus 576 classroom hours in rigging, welding and alignment.
 - Operated forklifts and aerial lifts daily with no equipment damage reports in 4 years.
