SUMMARY

Millwright general foreman with 14 years in the trade, now directing 5 foremen and 60+ millwrights on refinery and chemical plant turnarounds. Builds crew plans and lift plans, tracks manhours against estimates, and reports progress daily to the site superintendent. Keeps rotating equipment work safe, on schedule and to OEM tolerances.

EXPERIENCE

Millwright General Foreman

01/2022 - Present

Pelican Industrial Services

Baton Rouge, LA

Turnaround and maintenance contractor for Gulf Coast refineries and chemical plants.

- Direct 5 foremen and **60+** millwrights on turnarounds of up to 180,000 manhours.
- Plan pump, compressor and turbine work packages, finishing 4 of 5 turnarounds ahead of schedule.
- Track manhours and earned value daily, holding labor overruns under 3% across 2025.
- Review lift plans and rigging for heavy lifts, with zero recordable incidents in 2 years.

Millwright Foreman

03/2017 - 12/2021

Pelican Industrial Services

Baton Rouge, LA

Same contractor, refinery and chemical plant maintenance.

- Led crews of 10 to 15 millwrights on pump overhauls and compressor rebuilds.
- Coordinated permits and lockout/tagout with operations, cutting permit delays by 25%.
- Trained 12 journeymen on laser alignment and mechanical seal installation.
- Built a pre-turnaround tool and parts checklist that cut first-day waiting time by 2 hours per crew.

Journeyman Millwright

05/2012 - 02/2017

River Parish Mechanical

Gonzales, LA

Rotating equipment contractor for petrochemical plants.

- Overhauled API pumps and steam turbines across 20+ plant outages.
- Set and grouted 40 new pump skids from blueprints and setting plans.
- Aligned 200+ pump and motor sets with laser alignment tools to OEM tolerances.
