

Tyler Brandt

MILLWRIGHT HELPER

Gary, IN • (219) 555-0172 • tyler.brandt@email.com • linkedin.com/in/tylerbrandt

Summary

Millwright helper with 1 year on a steel mill maintenance crew, working beside journeyman millwrights on conveyor, pump and gearbox repairs. Handles rigging setup, hand tools and power tools safely, reads basic blueprints and follows lockout/tagout on every job. Forklift certified, OSHA 10 trained and ready for an apprenticeship track.

Skills

- Hand Tools
- Power Tools
- Rigging
- Lockout/Tagout
- Bearings
- Blueprints
- Dial Indicators
- Forklifts
- Overhead Cranes
- Attention to Detail

Experience

Millwright Helper

08/2025 - Present

Calumet Industrial Services

Gary, IN

Maintenance contractor serving steel mills and coke plants in northwest Indiana, working rotating day and night shifts.

- Organize hand tools, power tools and rigging gear for a 6-person crew before each shift and weekend outage.
- Replace bearings, belts and idlers on **40+** conveyor repairs under journeyman direction, meeting each outage deadline.
- Apply lockout/tagout and confined-space permits on every job, with zero safety incidents in 14 months.
- Measure shaft runout and gaps with feeler gauges and dial indicators, recording readings for the lead millwright.

Warehouse Associate

05/2023 - 07/2025

Lakeshore Steel Distribution

Portage, IN

Steel coil and plate distribution warehouse with overhead cranes and a 3-truck shipping dock.

- Operated forklifts and overhead cranes to move 200+ tons of coil and plate each week without damage claims.
- Loaded flatbeds to drawn load diagrams and securement rules, cutting load rework by 30% in one year.
- Inspected 5 forklifts at the start of each shift and reported hydraulic leaks before they caused breakdowns.
- Rigged coils with slings and C-hooks for crane lifts, following the posted rated load chart on every pick.
