- Pump Rebuilds
- Gearboxes
- Coupling Alignment
- Blueprints
- MIG Welding
- Attention to Detail

EDUCATION

Certificate 05/2023

Owens Community College

Perrysburg, OH

Industrial Maintenance Technology

EXPERIENCE

Millwright I 09/2024 - Present

Maumee Glass Containers Toledo, OH

24/7 glass bottle plant with 6 forming lines, 2 furnaces and annealing lehrs, on a 4-person maintenance crew per shift.

- Perform preventive maintenance on **6** forming lines, finishing 95% of weekly PM work orders on time.
- Rebuild centrifugal pumps and gearboxes, replacing bearings and seals to manufacturer tolerances.
- Align motor and gearbox couplings with dial indicators, keeping vibration within plant limits on 30 drives.
- Diagnose conveyor jams and lehr drive faults on night shift, restoring most lines in under an hour.

Maintenance Technician Apprentice 06/2023 - 08/2024

Wood County Packaging Perrysburg, OH

Corrugated packaging plant with die cutters, a corrugator and folder-gluers.

- Lubricated and inspected 25 machines on a weekly route using hand tools and the plant grease schedule.
- Fabricated guards and brackets from blueprints with MIG welding, finishing 40 shop requests in one year.
- Replaced chains, sprockets and belts on folder-gluers, cutting repeat breakdowns on those lines by 20%.
- Recorded every repair and part used in the maintenance log so the day crew could follow up on open jobs.
