

Brian Kowalczyk

Mold Remediation Technician

Seattle, WA · (206) 555-0171 · brian.kowalczyk@email.com · linkedin.com/in/briankowalczyk

SUMMARY

Mold remediation technician with 5 years of mold remediation and water damage work across the Puget Sound area, IICRC AMRT and WRT certified. Builds containment with negative air machines, removes growth with HEPA vacuuming and dry ice blasting, and passes third-party clearance testing on the first try on nearly every job.

EXPERIENCE

Mold Remediation Technician 05/2023 - Present

Puget Sound Environmental Services Seattle, WA

Mold, water and indoor air quality contractor working homes, schools and offices in King County.

- Complete mold remediation on **90+** crawlspace, attic and interior jobs a year under IICRC S520 standards.
- Build containment with poly sheeting and negative air machines, holding pressure at -0.02 inches of water column.
- Perform dry ice blasting and HEPA vacuuming on attic sheathing, passing 97% of clearance tests on the first try.
- Check respirator fit and PPE for a 4-person crew each week.

Restoration Technician 03/2021 - 04/2023

Evergreen Water and Mold Tacoma, WA

Water damage and mold company serving Pierce County homeowners and property managers.

- Dried **160** water losses a year and used moisture meters to find hidden leaks behind walls.
- Applied antimicrobial treatment to framing and subfloors on 50 Category 2 and 3 jobs.
- Bagged moldy drywall and insulation in 6-mil bags for disposal under county rules.
- Documented each job with photos and sketches for 4 insurance carriers.
