Nathan Feldman

Neuro-Optometrist

Boston, MA (617) 555-0115 nathan.feldman@email.com linkedin.com/in/nathanfeldman

SUMMARY

Neuro-Optometrist with 9 years of experience in binocular vision and brain injury care, including a residency in vision therapy and rehabilitation. Diagnoses and treats visual problems after traumatic brain injury, stroke and concussion, and works closely with neurologists, therapists and families on each rehabilitation plan.

EXPERIENCE

Neuro-Optometrist 04/2021 - Present

Bay State Vision Rehabilitation Center Boston, MA

Senior optometrist in an outpatient neuro-rehabilitation center with physical, occupational and speech therapy.

- Evaluate 12 patients a day with traumatic brain injury, stroke and concussion for visual and vestibular symptoms.
- Design neuro-optometric rehabilitation plans with prism lenses and vision therapy for a caseload of **180** patients.
- Present oculomotor testing and visual field testing results to neurologists and physical therapists at weekly rounds.
- Lead 3 vision therapists; 72% of patients report fewer symptoms on standard surveys after 12 weeks of care.

Optometrist, Vision Therapy 08/2018 - 03/2021

Charles River Vision Therapy Newton, MA

Associate doctor in a binocular vision and vision therapy practice.

- Treated 140 children and adults a year for convergence insufficiency, amblyopia and strabismus.
- Started a concussion management program with 2 high school athletic departments that saw 85 athletes in year one.
- Wrote progress reports for insurers and schools, raising approved therapy authorizations from 61% to 80%.
- Trained 5 new vision therapists on in-office binocular vision procedures and home program design.

Vision Therapy and Rehabilitation Resident 07/2017 - 06/2018

Atlantic Neuro-Vision Clinic Providence, RI

12-month residency in binocular vision, vision therapy and acquired brain injury.

- Managed 900 binocular vision and brain injury visits under attending neuro-optometrists.
- Presented a poster on post-concussion convergence findings at a national optometry meeting.
- Built home vision therapy programs for 40 stroke and brain injury patients, with weekly progress checks.
