Sanjay Iyer

ORACLE DBA

Irving, TX (972) 555-0119 sanjay.iyer@email.com linkedin.com/in/sanjayiyer

SUMMARY

Oracle DBA with 6 years of experience running Oracle 19c on Linux, RAC, Exadata and Data Guard for a telecom billing provider and an electric cooperative. Handles RMAN backups, ASM storage, patching and performance tuning across 85 databases and keeps the billing platform at 99.99% availability. Comfortable in PL/SQL and Unix shell scripting.

SKILLS

Oracle Database • RAC • Data Guard • RMAN • ASM • Exadata • Linux • PL/SQL • Shell Scripting

Performance Tuning

EXPERIENCE

Oracle DBA 01/2023 - Present

Lone Star Telecom Billing Services Irving, TX

Billing and customer data provider for 14 regional phone and cable carriers.

- Administer **85** Oracle 19c databases on Exadata and Linux, including 6 two-node RAC clusters for billing.
- Maintain Data Guard standby databases at a second data center and run 2 switchover tests a year with no data loss.
- Tune AWR and ASH hot spots with application teams, cutting the monthly bill run from 14 hours to 9.
- Apply quarterly release updates with rolling patching on RAC, keeping planned downtime under 30 minutes.

Database Administrator 07/2020 - 12/2022

Brazos Valley Electric Cooperative Fort Worth, TX

Electric cooperative serving 300,000 meters in North Texas.

- Ran RMAN backups and weekly restore tests for 30 Oracle and 10 SQL Server databases with no failed recoveries.
- Managed ASM disk groups and tablespace growth forecasts, avoiding any storage outage over 2 years.
- Automated health checks with Unix shell scripting and PL/SQL jobs that alert the team on failed backups.
- Upgraded 22 databases from Oracle 12c to 19c with zero data loss and a single weekend per system.
