SUMMARY

Licensed pest control technician with 1.5 years on a residential route in west Houston and a clean driving record. Handles general pest control, rodent control and termite inspections for about 15 homes a day, and keeps service records of chemicals and payments exact. Customer service on every stop keeps quarterly plans renewing.

EXPERIENCE

Pest Control Technician 04/2025 – Present
Bayou City Pest Solutions Houston, TX

Residential route technician for a regional pest control company running 40 service trucks.

- Handle 15 homes a day on a quarterly general pest control route covering west Houston, Katy and Cypress.
- Apply pesticide treatments to foundations, eaves and entry points at label rates, following Texas safety rules on every stop.
- Examine attics, garages and crawl spaces for rodents, roaches and ants, then walk homeowners through findings and prevention steps.
- Record chemicals used, square footage and payments in the route app, with 0 errors across 2 office audits in 2026.
- Set and check rodent control bait stations at 60 homes, using integrated pest management steps to cut repeat calls by 18%.

Landscape Crew Member 06/2022 – 03/2025
Greenline Grounds Co. Sugar Land, TX

Crew member for a commercial landscaping contractor serving office parks and HOAs.

- Mowed, edged and trimmed 25 commercial properties a week as part of a four-person maintenance crew.
- Drove the crew truck and trailer about 600 miles a month with no tickets, accidents or equipment damage.
- Spread granular fertilizer and fire ant bait under the supervision of a licensed applicator on 12 HOA sites.
- Answered property manager questions on site and passed service requests to the account manager the same day.
