Pharmacy Technology

SUMMARY

Hospital pharmacy technician with 4 years in acute care, the last 2 as a Pharmacy Technician II in a 450-bed teaching hospital IV room. Prepares TPN, pediatric syringes and batch doses through sterile compounding, performs pharmaceutical calculations and trains new staff on aseptic technique. Holds PTCB CPhT and CSPT certifications.

EXPERIENCE

Pharmacy Technician II 05/2024 - Present

Peachtree Regional Medical Center Atlanta, GA

450-bed teaching hospital; IV room and central pharmacy.

- Complete **120+** sterile compounding orders per shift, including TPN and pediatric syringes, under USP 797.
- Perform pharmaceutical calculations for weight-based doses, catching 3-5 order errors a month before verification.
- Train new Technician I staff on aseptic technique and garbing; all 6 trainees passed media-fill tests first time.
- Plan IV batch runs in Excel by unit demand, cutting wasted batched doses by 20% in one year.
- Review cleanroom cleaning and temperature logs weekly, with no findings in the 2025 Joint Commission survey.

Pharmacy Technician I 03/2022 - 04/2024

Chattahoochee Valley Hospital Marietta, GA

220-bed community hospital with a 24-hour inpatient pharmacy.

- Refilled **30** automated dispensing cabinets a day across medical, surgical and ICU units.
- Delivered first doses and code cart trays to nursing units, meeting a 30-minute target on 95% of runs.
- Documented fridge temperatures and returns in Microsoft Office forms for the pharmacy manager's monthly review.
