

Travis McAllister

PIPE LAYER

Tulsa, OK • (918) 555-0123 • travis.mcallister@email.com • [linkedin.com/in/travismcallister](https://www.linkedin.com/in/travismcallister)

SUMMARY

Pipe layer with 5 years installing underground utilities for subdivisions and city contracts around Tulsa, with more than 40,000 feet of sanitary sewer, storm sewer and water main laid. Sets the pipe laser, checks grade and bedding, and works trench boxes under a competent person. Holds OSHA 30, trench safety training and a Class A CDL.

SKILLS

- Underground Utilities
- Storm Sewer
- Water Main
- Pipe Laser
- Grade Checking
- Trench Safety
- Trench Boxes
- Backfill Compaction
- Teamwork
- Communication Skills

EXPERIENCE

Pipe Layer

02/2023 - Present

Arkansas River Utility Contractors

Tulsa, OK

Pipe layer for a 6-crew underground utility contractor.

- Install 8- to 24-inch PVC and concrete storm sewer pipe on grade, averaging **300** feet a day on subdivision work.
- Set the pipe laser at each manhole and do grade checking on every joint, holding slope within 0.02 feet.
- Build ductile iron water main runs with fittings and hydrants that pass pressure and bacteria tests the first time.
- Direct the excavator operator by hand signal and place bedding rock, relying on teamwork across a 4-person crew.

Utility Laborer

04/2021 - 01/2023

Green Country Excavating

Broken Arrow, OK

Laborer on underground utility and site-work crews.

- Set and moved trench boxes and shoring for 2 crews, following trench safety rules every shift.
- Compacted backfill in lifts with rammers and plate compactors, passing 95% density tests.
- Tapped mains and ran water service lines to 150 new homes.
- Marked existing underground utilities from 811 tickets before digging, with no line strikes in 2 years.
