> SUMMARY

Licensed project architect with 7 years of experience on higher education and civic buildings in Colorado, leading teams of 4 through construction documents and construction administration. Coordinates engineers and contractors, owns building codes review and runs RFIs and submittals in Bluebeam. Builds detailed Revit sets that hold up in the field.

> SKILLS

- Revit • AutoCAD • Bluebeam • SketchUp • Building Codes • Construction Documents
- Construction Administration • Consultant Coordination • Leadership • Problem-Solving Skills

> EXPERIENCE

Project Architect

04/2022 - Present

Clear Creek Architecture + Planning

Denver, CO

80-person firm designing campus, civic and public safety buildings.

- Lead technical delivery of a **\$48M** university science building from design development through construction administration.
- Coordinate structural, MEP and civil consultants in biweekly meetings, cutting construction RFIs 30% below the firm average.
- Review 250+ submittals and answer 180 RFIs in Bluebeam with an average turnaround of 5 days.
- Mentor 3 junior designers on Revit detailing and construction documents standards.

Architectural Designer

06/2019 - 03/2022

Larimer Square Design Group

Denver, CO

Civic and municipal architecture studio.

- Produced Revit construction documents for 2 fire stations and a 40,000-square-foot library.
- Wrote building codes analyses for 5 projects, covering IBC occupancy, egress and fire separation.
- Built SketchUp and AutoCAD studies for city design review, winning first-submission approval on 3 projects.
