SUMMARY

Project Geologist with 6 years in environmental consulting, managing 15 soil and groundwater projects with $2.4M in yearly fees across Pennsylvania and Ohio. Handles project management from proposal to closure, leads field teams, builds GIS figures, and writes Act 2 and RCRA reports with strong technical writing skills.

SKILLS

Project Management • Technical Writing Skills • GIS • Groundwater Sampling • Remedial Investigations
Soil Borings • RCRA • Act 2 • Work Independently • Self-Motivated

EXPERIENCE

Project Geologist 03/2023 - Present
Allegheny Earth Sciences Pittsburgh, PA
Environmental and geotechnical consulting firm with 200 staff.

- Manage **15** active projects worth $2.4M a year, keeping 90% on budget and on schedule.
- Coordinate drillers, labs and subcontractors on remedial investigations at 8 former industrial sites.
- Write work plans, scopes of work and Act 2 cleanup reports, with 6 sites reaching relief of liability.
- Mentor 4 staff geologists on field logging, sampling methods and report review.

Staff Geologist 07/2020 - 02/2023
Three Rivers Environmental Pittsburgh, PA
Environmental consultancy serving energy and manufacturing clients.

- Led quarterly groundwater sampling at **40** monitoring wells for 5 RCRA facilities.
- Logged 220 soil borings and supervised installation of 60 monitoring wells.
- Produced GIS maps and cross sections for 30 site characterization reports.
- Drafted 12 proposals that won $850K in new work.

Environmental Intern 05/2019 - 08/2019
Monongahela Environmental Services Canonsburg, PA
Summer internship with a remediation and compliance firm.

- Gauged **70** monitoring wells for water levels and product thickness.
- Entered 2,000 lab results into the project database.
- Drafted 30 boring logs in gINT for site reports.
