Summary

Quality assurance technician with 2 years at a nut and dried fruit processor, running HACCP checks, GMP audits and lab tests on 4 packing lines. Verifies sanitation before startup, records results in Microsoft Excel, and brings attention to detail and clear communication skills in English and Spanish to the production floor.

Experience

07/2024 - Present
Fresno, CA

Quality Assurance Technician

Central Valley Orchard Foods

Day-shift QA technician at a 300-employee almond and dried fruit processor.

- Monitor **6** HACCP critical control points each shift, including metal detection and pasteurization temperatures.
- Verify sanitation of 4 packing lines before startup with ATP swabs and visual checks, passing 98% on first test.
- Test moisture, Brix and foreign material on about 30 lots a day and hold any lot outside spec.
- Run weekly GMP audits of the plant floor and write findings in Microsoft Word for the QA manager.

05/2022 - 06/2024
Selma, CA

Packing Line Associate

San Joaquin Produce Packers

Packing associate at a stone fruit packing house, seasonal and then year-round.

- Sorted and graded about 8 tons of peaches and plums per shift against USDA grade standards.
- Recorded weight and label checks in Microsoft Excel every 30 minutes for the line lead.
- Reported 15 foreign material hazards to QA in 2023 after completing SQF food safety training.
- Trained seasonal workers in Spanish on hand washing, allergen and glass policies.
