SUMMARY

Quality control associate with 18 months at a dietary supplement plant, running in-process testing, sampling and batch record review under GMP on 3 encapsulation and packaging lines. Logs results in Microsoft Excel, sends shift summaries by Outlook, raises deviations quickly, and brings attention to detail and problem-solving skills to every lot. OSHA 10 trained.

EXPERIENCE

Quality Control Associate

04/2025 - Present

Lehigh Valley Nutrition Labs

Allentown, PA

Second-shift QC associate at a 250-employee supplement manufacturer.

- Perform in-process testing on **3** encapsulation and packaging lines, checking weight, hardness and seal integrity hourly.
- Collect and label about 40 retain and lab samples per shift following written sampling plans and chain-of-custody forms.
- Review 15 batch records a week for missing signatures and out-of-range entries before QA release.
- Logged 12 deviations in 2025 for wrong lot codes and damaged packaging, each closed within 5 days.

Production Associate

06/2023 - 03/2025

Keystone Packaging Solutions

Bethlehem, PA

Line associate at a contract packager of consumer health products.

- Ran a blister packaging line producing 40,000 units a shift and completed line clearance checklists.
- Completed visual inspection of finished cartons, pulling about 300 defective units a week.
- Recorded line counts, rejects and downtime in Microsoft Excel for the shift lead's daily production report.
- Trained 4 new associates on GMP gowning and line clearance steps.
