Experience

Quality Specialist

Raritan Valley Pharmaceuticals

04/2023 - Present

New Brunswick, NJ

Contract manufacturer of tablets and capsules for 30+ pharma clients.

- Review **40-50** executed batch records a month for GMP compliance before QA release.
- Manage material status in SAP, dispositioning about 300 raw material and component lots a month.
- Investigate deviations with production and QC, closing 85% within the 30-day target, up from 60%.
- Compile monthly data analysis on deviations and complaints in Excel and PowerPoint for the quality council.

Quality Assurance Associate

Garden State Laboratories

06/2022 - 03/2023

Edison, NJ

Generic drug maker with 2 oral solid dose suites.

- Issued and reconciled 200+ batch records a month and checked floor logbooks for GMP gaps.
- Drafted 15 SOP revisions in Microsoft Word after audit findings and routed them for approval.
- Pulled records for 3 client audits, answering document requests within 1 hour.

QC Laboratory Technician

Middlesex Analytical Services

06/2021 - 05/2022

Piscataway, NJ

- Tested 20-30 samples a day by HPLC, dissolution and Karl Fischer for release and stability.
- Recorded results in the LIMS with second-person review, keeping a 97% right-first-time rate.
- Checked balances and pH meters each morning and logged out-of-tolerance readings for repair.
