SUMMARY

Newly licensed registered nurse with a BSN and 640 clinical hours across medical-surgical, telemetry, ICU and pediatric rotations, applying for an RN residency. Two years as a patient care technician built strong patient assessment habits and accurate Epic documentation.

EXPERIENCE

Patient Care Technician (Part-Time)

06/2024 - Present

Bayou Bend Medical Center

Houston, TX

Weekend shifts on a 30-bed adult medical-surgical unit.

- Record vital signs, blood glucose and intake and output for up to **12** patients per shift.
- Escalate abnormal vitals to the charge nurse, including 3 early sepsis alerts that triggered rapid response.
- Perform 12-lead ECGs, urinary catheter care and wound care under RN supervision.

Student Nurse (Clinical Rotations)

08/2024 - 05/2026

Harris Bay Regional Hospital

Houston, TX

640 hours across medical-surgical, telemetry, ICU and pediatrics, ending in a 144-hour preceptorship.

- Managed a 4-patient assignment with telemetry monitoring during a **144-hour** capstone preceptorship.
- Completed medication administration by mouth, injection and IV therapy across 5 rotations with zero errors.
- Applied the nursing process to 20 care plans, using clinical judgment to set each shift's priorities.
- Taught patient education on insulin, wound care and discharge steps to 40+ patients using teach-back.
