SUMMARY

Registered veterinary technician with 4 years of experience in small animal general practice. Handles anesthesia, IV catheter placement, venipuncture, digital radiology and dentistry, and treats client communication as part of patient care. Dependable on a 4-doctor surgical schedule, with 1,200+ anesthetic cases monitored since becoming an RVT.

EXPERIENCE

Registered Veterinary Technician

09/2023 - Present
San Diego, CA

Mission Bay Veterinary Hospital

Four-doctor small animal hospital with surgery 5 days a week.

- Monitor anesthesia for 15 procedures a week and complete anesthetic records the doctors sign at recovery.
- Perform dental scaling, polishing and charting with full-mouth radiographs on about 8 patients a week.
- Manage IV catheter placement and fluid therapy plans for about 20 surgical and hospitalized patients a week.
- Counsel owners on common disease states such as diabetes and kidney disease, including insulin injections at discharge.

Veterinary Technician

06/2022 - 08/2023
Chula Vista, CA

Otay Ranch Pet Clinic

Busy general practice; worked as a technician while preparing for the RVT exam.

- Performed venipuncture and cystocentesis for lab work on about 30 samples a day.
- Secured fractious cats and large dogs for exams with towels, muzzles and low-stress restraint.
- Produced 15 diagnostic radiographs a week and labeled each study for the doctor's review.
- Updated medical records in ezyVet before the end of every shift for 40+ patients a day.

Veterinary Assistant

08/2020 - 05/2022
San Diego, CA

Clairemont Animal Clinic

Part-time role while completing an animal health technology degree.

- Prepared about 12 surgical patients a week, shaving and positioning them for the surgical team.
- Delivered client education on flea, tick and heartworm prevention to about 20 owners a day.
- Checked vaccine and prescription records for 25+ appointments a day before each exam started.
