

Olivia Tran

Respiratory Therapist I

📍 San Antonio, TX 📞 (210) 555-0133 ✉ olivia.tran@email.com 🌐 linkedin.com/in/oliviattran

SUMMARY

Respiratory Therapist I with 14 months of adult acute care on medical-surgical, step-down and ICU floors, holding the RRT credential and a Texas license. Handles patient assessment, mechanical ventilation and BiPAP, runs arterial blood gases, and responds to rapid responses and codes. Communicates clearly with physicians and nurses during handoffs and rounds.

SKILLS

- Oxygen Therapy
- Mechanical Ventilation
- Ventilator Management
- BiPAP
- Arterial Blood Gases
- Airway Clearance
- Patient Assessment
- Infection Control
- Epic
- Critical Thinking

EXPERIENCE

Respiratory Therapist I 08/2025 - Present
Alamo Heights Medical Center San Antonio, TX

Acute care hospital with 350 beds, a 28-bed adult ICU and a respiratory department of 40 therapists.

- Treated **14 to 18** patients a shift with oxygen therapy, aerosol medications, airway clearance and incentive spirometry.
- Handle ventilator management and BiPAP for up to 6 ICU patients, recording settings and weaning progress at each check.
- Drew and analyzed 300 arterial blood gases, calling critical values to physicians within 10 minutes.
- Responded to 45 rapid responses and codes, providing bag-mask ventilation and setting up for intubation.

Patient Care Technician 09/2022 - 05/2025
Hill Country Community Hospital San Marcos, TX

Community hospital with 175 beds; part-time telemetry shifts while completing the bachelor's degree in respiratory care.

- Recorded vital signs, SpO2 and blood glucose for **20** patients per shift on a telemetry unit.
- Set up oxygen equipment and incentive spirometers as ordered, alerting therapists to changes in breathing.
- Supported 4 nurses per shift with patient mobility, feeding, turning and infection control procedures on the telemetry unit.
- Trained 6 new technicians on unit routines, safe patient handling and the Epic charting workflow.
