SUMMARY

Respiratory Therapy Student in the final year of an accredited associate degree program, with 640 clinical hours in adult ICU, emergency and neonatal units. Delivers oxygen therapy, aerosol therapy and chest physiotherapy under RRT supervision and documents every treatment in Epic. Current BLS and on track for the NBRC TMC exam in 2027.

EXPERIENCE

Respiratory Therapy Student (Clinical Rotations)

01/2026 - Present

Lakeshore General Hospital — Cleveland, OH

Teaching hospital with 480 beds, a 36-bed medical ICU and a level III NICU; 16-week adult and neonatal rotations.

- Delivered **350** aerosol therapy and oxygen therapy treatments plus incentive spirometry under a registered therapist's supervision.
- Performed chest physiotherapy and airway clearance for 40 cystic fibrosis and post-surgical patients on the step-down unit.
- Completed 120 ventilator checks on mechanical ventilation patients in the ICU, recording settings, alarms and tolerance.
- Drew and ran 25 arterial blood gases, reporting values to the preceptor and charting results in Epic.

Patient Care Technician (Part-Time)

06/2024 - Present

Westshore Community Hospital — Lakewood, OH

Community hospital with 210 beds; part-time evening and weekend shifts on a medical-surgical unit while in school.

- Measured vital signs and pulse oximetry for **18** patients a shift on a busy medical-surgical unit.
- Reported low oxygen saturation and labored breathing to nurses right away, leading to 12 rapid response evaluations.
- Repositioned, ambulated and fed patients while following isolation and infection control procedures in every room.
- Logged intake, output and blood glucose readings in Epic for 3 nurses each shift without charting errors.
