

Marcus Thompson

RN SUPERVISOR

 Decatur, GA  (404) 555-0193  marcus.thompson@email.com  linkedin.com/in/marcusthompson-rn

SUMMARY

RN Supervisor with nine years in skilled nursing and long-term care, five of them running evening shifts for a 140-bed center. Steady clinical judgment with sick residents, fair staffing by acuity and close attention to state and federal regulatory requirements.

SKILLS

Other Skills: Nursing Practices, Clinical Judgment, Managing Care for Multiple Patients, Regulatory Requirements (CMS), Infection Control, Wound Care, Staffing by Acuity, Electronic Health Record Software (PointClickCare), Leadership, Communication

EXPERIENCE

RN Supervisor 06/2021 - Present
Peachtree Gardens Nursing and Rehabilitation Center Decatur, GA

140-bed skilled nursing and rehabilitation center, evening shift.

- Supervise nursing care for **140** residents across three units on evening shift, directing 4 nurses and 14 CNAs.
- Respond to changes in condition and falls, assess residents, notify physicians and families, and file incident reports same shift.
- Fill call-outs and balance assignments by acuity, cutting agency hours by 35% in 2025.
- Audit medication passes and infection-control practice weekly ahead of a 2025 state survey with no nursing deficiencies.

Charge Nurse (RN) 07/2017 - 05/2021
Magnolia Crest Health Care Center Atlanta, GA

42-bed post-acute and long-term care unit.

- Led a 42-bed post-acute unit, assigning care to 2 LPNs and 6 CNAs and reviewing charting in PointClickCare.
- Received, transcribed and carried out physician orders, including IV antibiotics and wound vac therapy.
- Trained 12 new nurses on admissions and skin assessments; unit-acquired pressure injuries fell **40%**.
- Completed admission assessments and care plans for 5-7 new rehab residents a week.
