SUMMARY

Safety supervisor with 8 years in refinery and chemical plant maintenance, now leading 6 safety technicians on turnarounds of up to 900 craft workers. Enforces OSHA regulations for confined space entry, fall protection and permit work, delivers safety training and leads root cause analysis after incidents. Known for steady leadership on night shifts.

SKILLS

OSHA Regulations • Root Cause Analysis • Safety Training • Confined Space Entry • Fall Protection
Permit to Work • Excel • Outlook • Microsoft Office • Leadership

EXPERIENCE

Safety Supervisor

03/2022 - Present

Bayou Industrial Contractors

Baton Rouge, LA

Industrial maintenance and turnaround contractor with 1,500 craft employees in Louisiana.

- Direct 6 safety technicians across 4 refinery turnarounds a year with up to 900 craft workers on site.
- Review confined space entry, hot work and fall protection permits daily, stopping work on 30 unsafe jobs in 2025.
- Deliver site safety training to 200 new hires a month and track certifications in Excel and Outlook.
- Lead root cause analysis on incidents, helping hold the total recordable rate under 0.5 for 3 years.

Safety Technician

06/2018 - 02/2022

River Parish Process Services

Geismar, LA

Chemical plant maintenance contractor with 400 employees.

- Monitored atmospheric testing and attendant duties for 500+ confined space entries a year.
- Inspected scaffolds, harnesses and rigging on 2 units each shift and corrected 95% of issues on the spot.
- Prepared daily safety reports and toolbox talks with Microsoft Office for 150 craft workers.
- Coached 40 foremen on job safety analysis, raising observation card submissions by 60%.
