EXPERIENCE

School Nurse Cedar Creek School District	08/2022 - Present Bloomington, MN
--	--------------------------------------

Licensed school nurse for two K-5 elementary schools.

- Deliver nursing care for **1,150** students across two elementary schools, averaging 45 health office visits a day.
- Administer daily and emergency medications, including insulin and epinephrine, and train 30 staff as delegated medication aides.
- Write individualized health and emergency action plans for 85 students with diabetes, asthma, seizures or severe allergies.
- Raised kindergarten immunization compliance from 88% to 97% by tracking records in Excel and hosting two county clinics.

Registered Nurse, Pediatrics Northstar Children's Hospital	07/2020 - 07/2022 Minneapolis, MN
--	--------------------------------------

Pediatric medical-surgical unit, ages infant to 17.

- Cared for 3-4 pediatric medical-surgical patients per shift, completing nursing assessments and age-based pain scoring.
- Taught parents asthma action plans, inhaler technique and diabetes care before discharge, using teach-back.
- Coordinated care with child life, respiratory therapy and social work during daily interdisciplinary rounds.
- Managed weight-based IV fluids, antibiotics and pain medications, with 2-nurse double checks on every high-alert dose.
