Summary

Highly skilled Security Tester with 5+ years of experience in identifying vulnerabilities and ensuring the security of software applications. Proven track record of successfully identifying and mitigating security threats, with a strong understanding of industry standards and best practices.

Experience

Senior Security Tester

CyberShield Inc. • New York, USA • Jan 2020 - Present

Lead security testing efforts for multiple high-profile clients, ensuring the identification and mitigation of security vulnerabilities in software applications.

- Designed and implemented comprehensive security testing plans, resulting in a 95% reduction in identified vulnerabilities
- Collaborated with cross-functional teams to develop and implement secure coding practices, resulting in a 30% reduction in security-related defects
- Conducted penetration testing and vulnerability assessments, identifying and exploiting vulnerabilities to demonstrate potential attack vectors
- Developed and maintained automated security testing scripts, resulting in a 25% increase in testing efficiency

Security Tester

SecureIT Solutions • Chicago, USA • Jun 2018 - Dec 2019

Conducted security testing and vulnerability assessments for various clients, identifying and reporting security vulnerabilities and providing recommendations for remediation.

- Performed black-box, gray-box, and white-box testing to identify security vulnerabilities in software applications
- Utilized industry-standard tools and techniques, such as OWASP ZAP and Burp Suite, to identify and exploit vulnerabilities
- Collaborated with development teams to implement secure coding practices and address identified vulnerabilities
- Developed and maintained detailed reports and metrics on security testing efforts, resulting in a 20% increase in client satisfaction

Education

Bachelor of Science

University of Illinois • Urbana, USA • Aug 2014 - May 2018

Computer Science • 3.5/4.0
