SUMMARY

Assembler with 2+ years on trailer and cabinet production lines in San Antonio, building frames, axles and light harnesses from blueprints. Works with hand tools, power tools and a tape measure to 1/16-inch tolerance, keeps a safe, organized station and brings attention to detail to every unit.

EXPERIENCE

Assembler

03/2025 - Present

Alamo Trailer Works — San Antonio, TX

Assembles utility and equipment trailers for dealers across Texas.

- Assemble **6** utility trailer frames per shift, bolting axles, fenders and crossmembers from blueprints.
- Square each frame with a tape measure and framing square, holding tolerance to 1/16 inch.
- Route and connect 7-pin light harnesses, then test every lamp before units move to paint.
- Report weld and part defects to the quality lead, cutting rework at final inspection by 18% in 2025.

Production Associate

06/2024 - 02/2025

Hill Country Cabinetry — New Braunfels, TX

Built kitchen cabinet boxes and drawers in a 60-person shop.

- Fastened drawer boxes and face frames with pneumatic nailers and other power tools at 220 units a day.
- Applied basic math to cut list conversions, wasting 12% less plywood per order than the line average.
- Entered completed job tickets in the shop tablet system for 40+ orders a week.
