Brandon Haskell

Senior Completions Engineer

Senior completions engineer with 9 years in high-pressure Haynesville gas, leading completion design and hydraulic fracturing programs for 3 frac fleets. Cut completed well cost 22% through simul-frac, vendor management and fracture diagnostics, and mentors engineers and field consultants on stimulation design.

EXPERIENCE

Senior Completions Engineer

02/2022 - Present

Caddo Lake Resources — Shreveport, LA

Haynesville gas producer completing about 60 wells a year in North Louisiana.

- Lead completion design for **60** Haynesville wells a year at bottomhole pressures above 11,000 psi.
- Introduced simul-frac on 2 fleets, raising pumping hours per day from 15 to 21.
- Run vendor management for 3 frac fleets and 2 wireline crews, cutting completed well cost 22% since 2022.
- Mentor 4 completions engineers and 6 field consultants on stimulation design and stage quality checks.

Completions Engineer

06/2019 - 01/2022

Red River Gas Operating — Shreveport, LA

Private operator with Haynesville and Cotton Valley gas wells.

- Wrote stimulation programs in StimPlan for **70** wells, testing fluid systems and proppant size.
- Analyzed fracture diagnostics from fiber optics on 3 pads to reset cluster spacing on 40 wells.
- Tracked completions cost control in Microsoft Excel, finishing 2021 $5M under budget.
- Coordinated 5.5-inch casing designs with drilling, rated for 15,000 psi frac pressures.

Completions Field Engineer

06/2017 - 05/2019

Pinewoods Well Services — Longview, TX

Frac and wireline service company working East Texas and North Louisiana.

- Supervised **400** frac stages and 90 wireline runs in East Texas and North Louisiana.
- Logged pumping data and wrote 50+ post-job reports for operator engineers.
- Tested wellheads and frac stacks to 12,500 psi before each job.

SKILLS

Completion Design

Hydraulic Fracturing

Stimulation Design

Fracture Diagnostics

Vendor Management

StimPlan

Completions Cost Control

Microsoft Excel

Mentoring

EDUCATION

Bachelor of Science

05/2017

Louisiana Tech University

Ruston, LA

Petroleum Engineering

CERTIFICATES

Professional Engineer (PE)

04/2022

Louisiana Professional Engineering and Land Surveying Board
