Summary

Senior project architect with 11 years of experience and an Arizona license, leading K-12, civic and multifamily projects up to $90M from design development through closeout. Sets the technical approach for building systems and construction techniques, checks every set against building codes and runs construction administration in Bluebeam. Leads teams of 6.

Experience

04/2021 - Present
Phoenix, AZ

Senior Project Architect

Camelback Studio Architecture

110-person firm designing schools, civic buildings and housing across Arizona.

- Lead technical delivery for **3** projects at a time, including a $90M high school, through construction documents and closeout.
- Develop envelope and roofing details for desert heat, using construction techniques that held warranty callbacks to zero on 4 buildings.
- Direct construction administration with general contractors, reviewing 600 submittals and 300 RFIs in Bluebeam.
- Coordinate building systems with MEP and structural engineers in Revit, resolving 150 clashes before bid.

06/2015 - 03/2021
Tempe, AZ

Project Architect

Sonoran Design Associates

Civic and education architecture firm.

- Handled project management for 7 civic and school projects, holding schedules and $45M in construction budgets.
- Produced Enscape renderings and Revit sets for 10 school board presentations.
- Reviewed construction documents for building codes compliance on 20+ permit submittals.
