Summary

Senior survey technician with 6 years of land surveying experience in central Ohio, split between field crews and the CAD office. Builds surfaces and base maps in AutoCAD Civil 3D, writes legal descriptions for PLS review, and sorts out problem boundaries with careful deed research and analytical checks in Excel.

Experience

02/2023 - Present
Columbus, OH

Senior Survey Technician

Scioto Valley Surveyors

Senior technician for a 40-person land surveying firm.

- Produce base maps and existing-ground surfaces in AutoCAD Civil 3D for **45** site and roadway projects a year.
- Write legal descriptions and easement exhibits for the PLS to sign, with 98% passing county auditor review.
- Train 3 junior technicians on Trimble Business Center processing and the firm's point code library.
- Resolve conflicting deed calls on boundary surveys, preparing evidence summaries that cut PLS review time by 25%.

06/2020 - 01/2023
Dublin, OH

Survey Technician

Buckeye Civil Consultants

Field technician for a civil engineering firm.

- Ran GPS and robotic total stations on topographic surveys for **150+** commercial and utility jobs.
- Reduced level runs and traverses in Excel, closing 95% of loops within tolerance on the first pass.
- Staked storm and sanitary sewer lines for 20 subdivision phases from approved cut sheets.
- Documented field notes, sketches and photo logs for every job, supporting 4 boundary dispute files.
