

Renee Okafor

Senior Systems Administrator

Senior Systems Administrator with 9 years of experience running hybrid Windows Server and Linux estates of up to 1,200 servers for financial and logistics firms. Owns Active Directory and Group Policy design and VMware capacity, and builds the PowerShell, Python and Ansible automation that replaced most manual build and patch work.

Experience

Senior Systems Administrator

Trinity Lane Financial Group • Plano, TX • 01/2022 - Present
Regional lender with 2 data centers and 2,400 employees.

- Lead 4 administrators who run 1,200 Windows Server and Linux servers across 2 data centers at **99.98%** uptime.
- Own Active Directory and Group Policy for 2,400 users, with zero critical findings in the last 3 annual audits.
- Build Ansible playbooks and PowerShell modules that patch 900 servers a month inside a 4-hour window.
- Plan VMware vSphere capacity for 38 hosts and present quarterly hardware forecasts to the infrastructure director.

Systems Administrator II

Lone Star Freight Systems • Irving, TX • 05/2019 - 12/2021
Logistics company with 40 freight terminals.

- Migrated **220** servers from Windows Server 2008 R2 to 2016 with no unplanned outages.
- Wrote Python scripts that pulled DNS and DHCP data from 40 terminals into one inventory report.
- Cut average incident resolution from 6 hours to 2.5 with new troubleshooting guides and alert rules.
- Rebuilt backup jobs for 60 TB of data and passed 4 straight disaster recovery tests.

Systems Administrator

North Texas Medical Supply • Denton, TX • 06/2017 - 04/2019
Medical supply distributor with 350 users.

- Managed 70 Windows and Red Hat servers, Exchange and file shares for 350 users.
- Deployed WSUS with a monthly patch calendar, raising patch compliance from 71% to 97%.
- Configured Nagios checks on every server so failing disks were replaced before outages.
- Moved 350 users from local profiles to roaming profiles and redirected folders through Group Policy.
