SUMMARY

Siding Installer with 5 years on residential exterior crews in the Twin Cities, installing vinyl siding, fiber cement siding, soffit and trim on new and storm-damaged homes. Reads elevations, flashes walls to manufacturer specs, and finishes a 2,000-square-foot house in 3 days with a 3-person crew. Holds a valid Minnesota driver license and EPA lead-safe certification.

EXPERIENCE

Siding Installer

04/2023 - Present

North Star Exteriors

Minneapolis, MN

Siding, roofing and window contractor running 7 exterior crews.

- Install vinyl siding and fiber cement siding on **55** homes a year, averaging 22 squares per house.
- Apply house wrap and window flashing tape to manufacturer specs, passing all warranty checks since 2023.
- Cut and fit trim and soffit with a miter saw and brake, wrapping fascia and casing in aluminum coil.
- Review color, profile and trim layout with homeowners, with customer service that brought 30 referrals in 2025.

Exterior Carpenter

05/2021 - 03/2023

Lakeland Builders

Bloomington, MN

New-construction framing and exterior finish subcontractor.

- Sheathed and wrapped exterior walls on 40 new townhomes before siding crews arrived.
- Erected pump jack scaffolding on 3-story units and inspected planks and braces daily.
- Set 600 windows and doors with sill pans and flashing, with no water intrusion callbacks.
- Checked level and reveal lines with attention to detail on lap siding and shake panels.

Carpentry Student Worker

09/2020 - 04/2021

Twin Cities Habitat Build Site

St. Paul, MN

Volunteer-led affordable housing build site partnered with the carpentry program.

- Framed walls and hung siding on 2 single-family homes using hand and power tools.
- Measured and cut 150 trim pieces from shop drawings with a crew lead.
- Installed soffit and fascia on a 4-unit townhome under the site supervisor.
