Minneapolis, MN
General Studies

SUMMARY

Sign installer with 5 years mounting channel letters, pylon cabinets and vinyl graphics for retail, bank and hospital clients across the Twin Cities. Runs bucket trucks and aerial lifts, connects LED sign components and follows safety protocols on every height job. Holds an MEWP operator card, OSHA 10 and a Class B CDL.

EXPERIENCE

Sign Installer

04/2023 - Present

North Star Sign & Lighting

Minneapolis, MN

Installer for a full-service sign fabricator with 3 bucket trucks and a crane truck.

- Install channel letters and lit cabinets on **8** to 10 storefronts a month, working up to 60 feet high.
- Operate a 60-foot bucket truck and set up traffic control, with zero incidents in more than 3 years.
- Connect LED modules and power supplies to the electrician's rough-in, passing every final inspection.
- Set pylon and monument signs with core drilling and epoxy anchors, placing 25 footings to survey marks.

Graphics Installer

06/2021 - 03/2023

Lakeside Visual Graphics

St. Paul, MN

Installer at a vehicle wrap and architectural graphics shop.

- Applied vinyl graphics and window film to 200 fleet vehicles and storefronts without a bubbling callback.
- Measured sites and photographed walls for designers, cutting wrong-size reprints by half.
- Mounted dimensional letters and wayfinding panels with hand and power tools and templates in 3 hospitals.
- Removed old signage and patched walls ahead of crews on 40 bank rebrand rollouts.
