

# Aaron Feldman

## Special Inspector

ICC-certified special inspector with 5 years of special inspections and testing on concrete, structural steel and masonry for commercial and multifamily buildings. Follows the inspection procedures in each approved special inspection program, performs construction materials testing in the field, and sends same-day reports to engineers of record and the building department.

### Experience

#### Special Inspector

Cascade Materials Testing & Inspection • Seattle, WA

07/2023 - Present

Special inspector for a 60-person testing and inspection agency.

- Conduct **6-10** special inspections a week on reinforced concrete, post-tensioning and embeds before placements.
- Verify high-strength bolting and weld sizes on structural steel against shop drawings and AWS D1.1.
- Perform construction materials testing on concrete, sampling 20-30 cylinder sets a week.
- Write daily reports in Word and track open nonconformance items in Excel until each is closed.

#### Field Technician

Evergreen Geotechnical Services • Tacoma, WA

06/2021 - 06/2023

Field testing technician for a geotechnical engineering firm.

- Tested soil compaction and fresh concrete on 50+ commercial sites across Pierce and King counties.
- Observed masonry grouting and took mortar and grout samples under a senior special inspector.
- Logged 1,000+ test results and sent reports through Outlook to project teams within 24 hours.
- Checked rebar size and spacing on 30 footing and wall pours as a trainee before ICC certification.
