## SUMMARY

SQL developer with 5 years of experience building T-SQL stored procedures, SSIS packages and SSRS reports on Microsoft SQL Server for a mortgage lender and an auto parts maker. Writes the data layer for C# and ASP.NET applications, handles performance tuning for loan systems holding 1.4 million loans and turns business rules into tested database code.

## SKILLS

SQL • T-SQL • Microsoft SQL Server • Stored Procedures • SSIS • SSRS • C# • ASP.NET
Performance Tuning • Attention to Detail

## EXPERIENCE

**SQL Developer** 01/2024 - Present

Motor City Home Lending Detroit, MI

*Mortgage lender servicing 1.4 million home loans.*

- Develop **150+** T-SQL stored procedures and views behind the loan servicing portal built in C# and ASP.NET.
- Build SSIS packages that bring in 30 investor and credit bureau files a day with logging and retry rules.
- Tune queries and indexes on 2 TB loan tables, cutting the escrow analysis job from 5 hours to 90 minutes.
- Write SSRS reports on delinquency and payoffs for 8 business teams and regulators, delivered on schedule each month.

**Database Developer** 06/2021 - 12/2023

Great Lakes Auto Components Troy, MI

*Tier 1 supplier of brake and steering parts with 5 plants.*

- Wrote T-SQL for the plant quality system, tracking 2 million part inspections a year across 5 plants.
- Created 25 SSRS reports on scrap, warranty claims and supplier defects for the quality engineering team.
- Built a C# console tool that loads supplier shipment files nightly, replacing a manual 2-hour task.
- Reviewed SQL code changes for 3 developers, catching missing indexes and unsafe dynamic SQL before release.

## EDUCATION

**Bachelor of Science** 05/2021

Wayne State University Detroit, MI

Computer Science
