EXPERIENCE

Sterile Processing Technician III

Three Rivers University Medical Center

03/2022 - Present

Pittsburgh, PA

Academic medical center with 40 ORs and a transplant program.

- Build **35** robotic, neuro and transplant sets a shift that need Tech III sign-off.
- Review 50 completed trays a week for count and function, lowering OR-reported defects by 35%.
- Lead the evening shift of 9 technicians when the lead is off, keeping first cases on time.
- Validate new instrument sets with vendors and write count sheets and photos for 60 new trays.
- Train Tech I and II staff on robotic arm reprocessing to the manufacturer's instructions.

Sterile Processing Technician II

Allegheny Valley Hospital

05/2019 - 02/2022

Natrona Heights, PA

280-bed hospital with 12 ORs and an endoscopy suite.

- Reprocessed 25 flexible endoscopes a day and logged every AER cycle.
- Assembled orthopedic and spine trays for 30 cases a day with 99.5% accuracy.
- Handled instrument recalls and traced 100% of affected loads within 24 hours.

Sterile Processing Technician I

Monongahela Regional Hospital

08/2018 - 04/2019

Charleroi, PA

120-bed community hospital with 5 ORs.

- Decontaminated and sterilized trays for 20 cases a day.
- Delivered case carts and restocked OR supply cores twice a shift.
- Washed and inspected 400 instruments a day in a busy decontamination room.
