EXPERIENCE

Research Assistant

04/2025 - Present

Three Rivers Child Language Lab — Pittsburgh, PA

University-affiliated lab studying early language learning in 300 families; 12 hours a week.

- Run **60+** study sessions with children ages 2 to 5 and their parents, following IRB protocols at every step.
- Code video of parent-child play across 8 behavior categories, reaching 92% agreement with a second coder.
- Merge and clean Qualtrics survey data in R, preparing a 1,200-response dataset for the lab's analysis.
- Automate weekly participant reminders with a Python script, cutting no-shows from 18% to 9%.

Survey Interviewer (Part-Time)

06/2024 - 03/2025

Keystone Opinion Research — Pittsburgh, PA

Phone survey firm running public opinion and health studies.

- Completed **25+** phone interviews per shift from a set script, holding a 98% quality review score.
- Entered open-ended answers into Excel and flagged unclear responses for supervisor review.
- Sorted 400+ open-ended answers into 12 topic categories for a client's final report.
- Protected participant names and contact details across 3 health studies under strict confidentiality rules.
