> EXPERIENCE

Supply Planner 03/2023 - Present

Triangle Pharma Manufacturing Durham, NC

Contract manufacturer of solid-dose drugs for 25 brand clients.

- Build 18-month supply planning schedules for **210** finished goods across 3 packaging lines in SAP.
- Balance capacity and materials planning with the plant, raising schedule attainment from 86% to 95%.
- Set safety stock levels by product family, cutting backorders by 40% while holding inventory flat.
- Run weekly supply reviews in PowerPoint with quality, purchasing and customer teams.
- Model the effect of a 6-week line shutdown in Microsoft Excel and protected all priority orders.

Materials Planner 05/2021 - 02/2023

Piedmont Personal Care Greensboro, NC

Maker of shampoos and lotions sold through national retailers.

- Planned raw materials and packaging for 400 components using MRP output in SAP.
- Released 70 purchase requisitions a week and confirmed delivery dates with buyers.
- Reduced expired raw material write-offs from $95K to $30K a year through shelf-life tracking.
- Built Power BI reports on component coverage that planners checked every morning.
