EXPERIENCE

Survey Instrument Operator	03/2025 - Present
Cumberland Land Surveying	Nashville, TN

Instrument operator on a 3-person field crew.

- Operate robotic and conventional total stations on **110+** boundary and topographic jobs since 2025.
- Collect GPS shots with RTK rovers and data collectors, coding 800-1,200 points per field day.
- Set building corner, offset and grade stakes for 15 residential subdivisions from crew chief cut sheets.
- Check tripods, prisms and batteries each morning, reporting damage before trucks leave the yard.

Survey Field Assistant	08/2024 - 02/2025
Harpeth Valley Engineering	Franklin, TN

Rod person and field assistant on boundary and topographic crews.

- Ran rod and prism on **60** survey jobs, cut line through brush, and set hubs and lath.
- Recorded leveling readings for 12 benchmark loops and learned field checks from 2 crew chiefs.
- Searched for property corners with a metal detector, recovering 70% of pins on boundary jobs.
