SUMMARY

Survey technician with 16 months of full-time experience and a geomatics degree from the University of Florida. Processes GPS and total station data, drafts topographic and boundary drawings in AutoCAD Civil 3D, and checks every closure in Excel before it goes to the project surveyor.

SKILLS

- AutoCAD Civil 3D
- GPS
- Data Collectors
- Data Collection
- Excel
- Microsoft Office
- MicroStation
- Surveying
- Attention to Detail
- Communication Skills

EXPERIENCE

Survey Technician

06/2025 - Present

Gulf Coast Land Surveying

Tampa, FL

Field and office technician for a 35-person surveying firm.

- Draft **70+** topographic and boundary drawings in AutoCAD Civil 3D from field points and crew sketches.
- Process data from data collectors every afternoon, flagging busts before crews leave the area.
- Compute lot closures and area tables in Excel for 12 subdivision plats, catching 9 errors before review.
- Run the GPS rover for field crews 2 days a week on drainage, as-built and data collection jobs.

Survey Intern

05/2024 - 08/2024

Alachua Engineering Group

Gainesville, FL

Summer internship with a civil engineering and surveying firm.

- Converted **40** legacy MicroStation sheets for county road projects into AutoCAD Civil 3D drawings.
- Logged GPS control observations for a 300-acre topographic survey and organized the project folders.
- Wrote field note summaries in Microsoft Office for 25 crew days, keeping records ready for billing.
- Measured building footprints and fences on 15 residential boundary surveys alongside the crew chief.
