EXPERIENCE

Tactical Paramedic Jan 2018 - Present

Emergency Medical Services (EMS) Agency New York, NY

Provided advanced life support care to critically ill or injured patients in high-pressure, dynamic environments, including SWAT operations, hostage situations, and natural disasters.

- Conducted thorough patient assessments, developed and implemented treatment plans, and administered medications as needed
- Collaborated with law enforcement and fire departments to provide medical support during tactical operations
- Participated in regular training exercises to maintain proficiency in tactical paramedicine, including simulated patient care scenarios and live-fire drills
- Achieved a 95% patient satisfaction rating through effective communication, empathy, and high-quality care

Flight Paramedic Jun 2015 - Dec 2017

Air Medical Transport Company Los Angeles, CA

Provided critical care transportation to patients via helicopter or fixed-wing aircraft, often in remote or hard-to-reach areas.

- Conducted pre-flight checks, ensured aircraft safety, and managed medical equipment and supplies
- Assessed and treated patients during transport, including administering medications, performing advanced airway management, and providing cardiac care
- Communicated effectively with dispatch, pilots, and receiving hospital staff to ensure seamless patient transfer
- Reduced patient transfer times by 30% through efficient communication and logistical planning
