SUMMARY

Tower foreman with 10 years in wireless construction, the last 4 leading 4- to 6-person climbing crews across Oklahoma and Texas. Reads RFDS and SOW packages, plans rigging and safety for every lift, and delivers PIM-clean closeouts on schedule with clear verbal and written communication skills.

EXPERIENCE

Tower Foreman 03/2022 - Present
Red Earth Tower Constructors Oklahoma City, OK

Foreman for a wireless construction contractor working for national carriers.

- Lead **5**-person climbing crews on 150+ 5G upgrades, decommissions and new builds since 2022.
- Review RFDS and SOW documents before mobilizing, catching 30 material and design conflicts in 2025.
- Direct rigging plans and daily job hazard analyses, with zero recordable injuries in 4 years.
- Coordinate site status with RF engineers and project managers through Outlook and Excel trackers.

Lead Tower Technician 06/2019 - 02/2022
Sooner Wireless Services Norman, OK

Lead climber on LTE and 5G installation crews.

- Ran PIM testing and line sweep on **400+** sectors, fixing 60 PIM sources from loose connectors and mounts.
- Trained 8 new climbers on rigging, fall protection and rescue plans.
- Installed antennas, radios and hybrid fiber on 90 LTE and 5G sites.

Tower Technician 08/2016 - 05/2019
Prairie Steel Communications Wichita Falls, TX

Climber on tower erection and antenna crews.

- Climbed and installed equipment on **200+** towers up to 500 ft, including guyed structures.
- Built closeout packages in Word with photos and test results for each site.
- Maintained rigging gear inspection logs for 3 trucks and retired 40 worn slings and ropes.
