Associate of Applied Science

05/2020

Jefferson State Community College

Birmingham, AL

Health Information Technology

SUMMARY

CSTR-certified trauma registrar with 4 years at a Level I trauma center and 2 prior years in hospital HIM. Abstracts about 45 cases a week, assigns AIS coding and ICD-10-CM injury codes, and submits clean National Trauma Data Standard files, with data abstraction accurate enough for performance improvement and verification reviews.

EXPERIENCE

Trauma Registrar 09/2022 - Present

Magic City Regional Medical Center Birmingham, AL

Level I trauma center entering about 4,200 registry cases a year.

- Extract **45** trauma cases a week from the EHR into the trauma registry, meeting the 60-day completion standard.
- Assign AIS coding and ICD-10-CM injury codes and calculate ISS for each patient, with 98% inter-rater agreement.
- Deliver quarterly National Trauma Data Standard files with zero rejected records for 8 straight quarters.
- Generate Microsoft Excel reports on falls, gunshot wounds and transfer times for the monthly trauma PI committee.

Health Information Technician 06/2020 - 08/2022

Shelby Valley Hospital Alabaster, AL

Health information management role at a 150-bed community hospital.

- Performed data entry of discharge data for 1,200 inpatient records a month with a 0.5% error rate.
- Reviewed emergency charts for completeness, using anatomy and medical terminology to flag missing injury details.
- Prepared physician deficiency letters in Microsoft Word and followed up until 95% were signed within 30 days.
- Completed trauma registry cross-training in 2022, abstracting 150 cases under the lead registrar's review.
