SUMMARY

Urgent care veterinarian with 4 years of practice, the last 2 in a walk-in clinic seeing 25-30 same-day cases a shift. Covers urgent care medicine from lacerations and ear flares to vomiting and limping dogs, uses fast diagnostics, and hands off overnight cases cleanly to emergency medicine partners.

EXPERIENCE

Urgent Care Veterinarian

09/2024 - Present

Front Range Pet Urgent Care — Denver, CO

Walk-in urgent care clinic open 10 a.m. to 10 p.m., 7 days a week.

- See 25-30 walk-in and same-day patients per 10-hour shift, keeping the median wait under 40 minutes.
- Perform laceration repair on bite and fence wounds under sedation in about 12 cases a week.
- Read digital radiography and point-of-care ultrasound for limping and urinary cases, sharing results with owners within 1 hour.
- Coordinate transfer of about **8%** of patients to partner ER hospitals with records and a phone handoff for every case.

Associate Veterinarian

06/2022 - 08/2024

Cherry Creek Animal Clinic — Denver, CO

Four-doctor general practice with about 6,500 active patients.

- Handled 18-20 appointments daily plus 4-5 work-in sick visits on busy afternoons.
- Performed 300+ spays, neuters and mass removals and planned anesthesia for each case.
- Wrote a client communication script for estimate talks, raising same-day treatment acceptance from 61% to 74%.
- Treated allergy, ear and skin disease with cytology and recheck plans for about 15 patients a week.

Veterinary Extern

01/2022 - 04/2022

Plains Animal Medical Center — Manhattan, KS

Final-year clinical externship at a busy mixed small animal practice.

- Diagnosed and treated 10-12 sick patients a day under a supervising veterinarian.
- Assisted on 60 surgeries, from dental extractions to splenectomies, and monitored each patient through recovery.
- Sutured 40 skin incisions and lacerations and wrote discharge notes for each owner.
