SUMMARY

Veterinarian with 4 years in small animal general practice, carrying a caseload of about 20 patients a day plus 2 surgery days a week. Strong in soft tissue surgery, dentistry and ultrasound, with thorough client education that keeps owners on preventive care, dental and wellness plans year after year.

EXPERIENCE

Veterinarian 03/2024 - Present
Oak City Animal Hospital Raleigh, NC
Four-doctor general practice with about 8,000 active patients and an in-house lab.

- Diagnose and treat about **20** dogs and cats per day, from wellness exams to diabetic and kidney cases.
- Perform 6–8 soft tissue surgery cases each surgery day, including cystotomies, gastropexies and mass removals.
- Run client education visits on nutrition, dental care and parasite prevention, lifting wellness plan sign-ups 22% in one year.
- Mentor 2 new graduate associates, reviewing their anesthesia plans, surgical notes and medical records with them each week.

Associate Veterinarian 06/2022 - 02/2024
Cary Crossroads Pet Clinic Cary, NC
Three-doctor small animal practice in a growing suburban area.

- Saw 16–18 appointments daily and vaccinated roughly 3,000 patients over 20 months of practice.
- Interpreted digital radiography and abdominal ultrasound studies for 15+ cases a week, cutting outside imaging referrals.
- Completed 400+ dentistry cases with extractions and built the clinic's nerve block and dental charting protocol.
- Returned client communication calls on lab results within 24 hours and kept patient care notes current.

Veterinary Technician 06/2016 - 07/2018
Wake Forest Animal Clinic Wake Forest, NC
Full-time technician role before veterinary school.

- Ran in-house bloodwork, urinalysis and fecal tests for 25–30 patients a day.
- Monitored anesthesia for 1,000+ spays, neuters and dental cleanings over 2 years.
- Captured and positioned radiographs for limping, coughing and vomiting patients, about 10 studies a week.
