SUMMARY

Warehousing Operations Specialist with 7 years optimizing flow at UPS and Home Depot DCs. Drove 22% productivity lift, $1.8M labor cost-out, and 99.3% inventory accuracy via slotting redesign and RF-driven exception tracking.

EXPERIENCE

Warehousing Operations Specialist

UPS Supply Chain Solutions

2022-Present Atlanta, GA

Operations specialist supporting a 1.0M sq ft 3PL DC handling healthcare distribution.

- Lifted productivity 22% via ABC-velocity slotting redesign on top 1,800 SKUs.
- Cut labor spend $1.8M annually through Engineered Labor Standards (ELS) deployment.
- Held inventory accuracy at 99.3% via RF-driven cycle-count cadence and CAPA tracking.
- Authored 14 SOPs adopted across 6 sister DCs in the network.
- Trained 22 associates on RF scanning, slotting logic, and FIFO rotation.

Operations Analyst

Home Depot Distribution

2018-2022 Atlanta, GA

Analytics support for a 1.6M sq ft RDC servicing 78 stores across the Southeast.

- Cut put-away cycle time 19% via dock door rebalancing.
- Built Power BI dashboards tracking UPH, accuracy, and OT; adopted as DC standard view.
- Reduced shrink 14% by pairing CCTV with RF exception data.
